 Nov 2022 – May 2023

 Karaikal, Puducherry

- Created custom mobile applications using native technologies.
- Provided dedicated support and timely issue resolution to clients following successful app launch

WORKS

1: **Real-Time Intelligent Traffic Signal Management System** - The system will capture live video from cameras installed at intersections to count vehicles and assess traffic density. Based on this real-time data, the system will dynamically adjust traffic signal timings to optimize traffic flow. (ongoing)

2: **Karai Kavalan** - Ultimate tool for seamless incident reporting to the Karaikal District Police Department. [\[link\]](#)

3: **Genix Auction** - A fullstack website using MEFN (MongoDB, Express, Flutter, NodeJS). [\[link\]](#)

4: **Weather App** - This Flutter application fetches and displays current weather data and a 5-day weather forecast using the "OpenWeatherMap API". It also stores the selected city locally so that the weather data can be displayed even when offline. [\[link\]](#)

5: **Gyanith24** - GYANITH '24, the annual Science and Technology of the National Institute of Technology Puducherry. [\[link\]](#)

6: **Gyanith23** - GYANITH '23, the annual Science and Technology of the National Institute of Technology Puducherry. [\[link\]](#)

7: **Drum Pad : Beat Master** - DrumPad Machine is a popular DJ beats music mixer. Create music with the DJ app in just a few clicks on your own. [\[link\]](#)

8: **Expense Tracker** - Experience Tracker is a powerful and intuitive app designed to seamlessly capture, organize, and analyse your life's experiences. [\[link\]](#)
